

DONE YOUR BOWEL TEST? GO ON YERSEL MRS H!

Do yours – it could be a lifesaver.

She's not alone. Last year, half a million Scots did their bowel cancer screening test. It's the best way to catch it early and, if you do, you're 14 times more likely to survive. So if you're aged between 50 and 74, do your test and join the bowel movement.
